

MONTSERRAT'S CREATIVE ROOM

Curiosity ♥ Creativity ♥ Kindness

Recycled Robot Challenge Guide

Materials: Clean recycled boxes • paper tubes • bottle caps • egg cartons • child-safe glue • tape • markers • googly eyes (optional) • child-safe scissors.

Instructions:

Gather clean recycled materials from around your home. Imagine what kind of robot you would like to build. Glue or tape the pieces together to create your robot, then decorate it with markers, stickers, or other craft materials. Give your robot a name and think about what special job it could do to help people.
